REASONS FOR APPEAL Sections 678 and 686 of the Municipal Government Act require that the written Notice of Appeal must contain specific reasons for the appeal.

I do hereby appeal the decision of the Subdivision/Development Authority for the following reasons:

Note: Additional and backup information will be provided by email. We believe there are numerous mitigating factors which support a relaxation of the existing 300m separation distance limitation. These mitigating factors include the following:

The sole liquor store within the 300m radius is separated by a major thoroughfare (85th Street SW). There is no line of sight between the stores.

Significant residential and commercial development is currently approved and underway in the NW quadrant of Springbank Hill. These developments are expected to add an additional 16,000 residents to the neighbourhood, representing an expected 160% increase to the current population of ~10,000 residents (2016 census).

Similar requests have been approved throughout the City of Calgary setting a precedent for approval. Of note are exemptions to the separation distance limitation directly north of our proposed location and separated by the exact same street (85th street SW).

The proposed location will be focused on wine sales, with staff trained and accredited with exceptional levels of wine knowledge and education. As such, the store will service a unique segment of alcohol sales in comparison to other Springbank Hill retail stores.

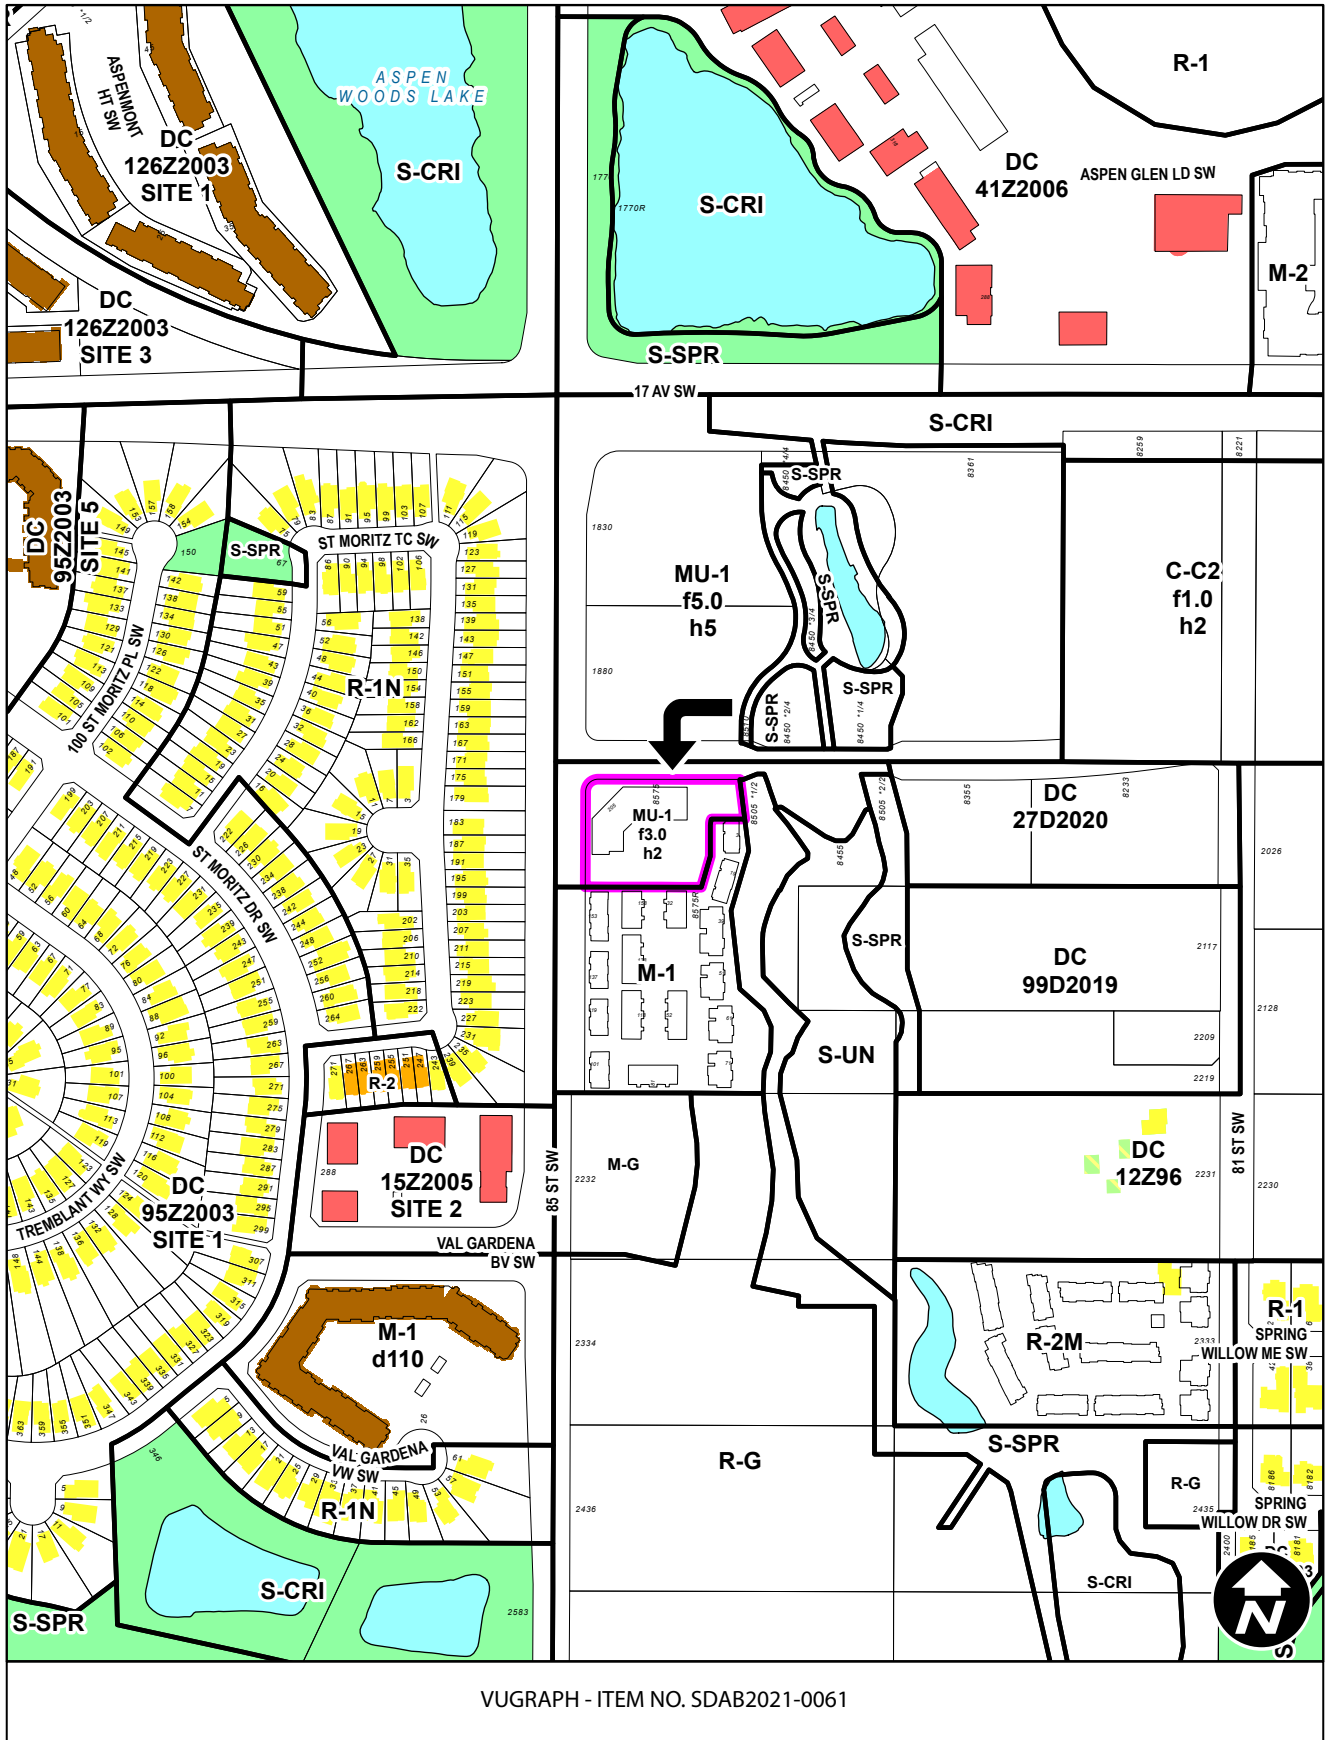

In order to assist the Board in scheduling, please answer the following questions to the best of your ability:

Reasons for Refusal for DP2021-4228

The Reasons for Refusal document is intended to provide a short summary of the development permit review and analysis. Attached to this document is supporting information about the application process; concerns raised by neighbours, other affected parties and the Community Association; the requested relaxations of the Land Use Bylaw; and other information in support of the decision.

Proposed Use

This application proposes a change of use for a Liquor Store to be in Suite 1110 288 ST Moritz Dr SW in the community of Springbank Hill. The subject parcel is designated Mixed Use – General District (MU-1) District under the City of Calgary Land Use Bylaw 1P2007. The Liquor Store land use is a discretionary use in this district.

Planning Review and Analysis

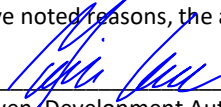

During the review, the Development Authority considered the Land Use Bylaw rules and the compatibility and impact of the proposed development on the site, and with respect to the neighbourhood. The application proposes to operate a Liquor Store within a multi storey mixed use building. The plans submitted with the application indicate that the proposed use is on the main floor and faces 85th Street.

The application seeks a relaxation for a liquor store to be located within 300 metres from another approved liquor store in the community, measured at 218 metres. The intent of the minimum 300 metre setback requirement for a liquor store is to prevent proliferation of the land use. Section 40 of the Land Use Bylaw explicitly instructs the Development Authority to refuse all development applications for prospective Liquor Stores when it is found that the separation distance to other approved Liquor Stores requires a variance of greater than 10.0 per cent.

In evaluating the application, the Development Authority applied section 40 of the Land Use Bylaw 1P2007, the Development Authority must refuse the proposed development due to the separation distance clearance to the nearest approved Liquor Store. Accordingly, the application is refused.

Decision

For the above noted reasons, the application is refused.

Site and Context

The proposed use is located within a new mixed-use building on a 0.52 hectare parcel. This parcel is located at the north west corner of 85th Street and 19th Avenue S.W. in the community of Springbank Hill. The parcel is under development and the Liquor Store is a revision to DP2019-4791. DP2019-4791 is pending receipt of the prior to released conditions issued by the Development Authority related to site servicing.

The development is a three-storey building that contains 15 dwelling units with commercial uses at grade. Indoor parking is located on the lower level accessed from the east side of the building within the parking lot. The parcel is accessed from 19th Avenue. At grade exterior parking is in the parking lot. Based on the submitted plans the loading area for the liquor store is in the parking spaces south of the liquor store.

Applicable Planning Policy Guidelines

Liquor Store Separation Distance Guidelines (adopted by Council May 13, 2015)

Objectives

To ensure opportunities for liquor stores are balanced with the cumulative impacts of traffic, parking, noise and aesthetics they may have on communities.
 The separation distance helps manage over concentration of liquor stores along corridors and in communities.

Guidelines

A request to reduce either the 300 metre minimum separation distance between a proposed liquor store and an existing liquor store, or the 150 metre minimum separation distance between a proposed liquor store and a school, up to 10 per cent of the minimum distance, may be approved by the development authority when:

1. The proposed liquor store is less than 300 metres from an existing liquor store, but located in and serving a different community or neighbourhood;
2. Only one liquor store or school is within the minimum separation distance;

The City of Calgary

Planning and Development
Technical Planning and Bylaw Review

3. A major road or expressway separates the proposed liquor store from the other liquor store or school within the separation distance;
4. The proposed liquor store, or the existing liquor store that is within the minimum separation distance, is located in an enclosed shopping centre; or
5. The existing liquor store located within the minimum separation distance is in a land use district where the separation distances do not apply (e.g. a direct control district, regional commercial district or a downtown district).

General Planning Criteria for Liquor Stores (adopted by Council November 6, 2000)

In its capacity as Approving Authority, the Calgary Planning Commission directs the Corporate Planning Applications Group to take into account the following issues in addition to all other relevant planning matters, in assessing and making recommendations on Development Permit applications for liquor stores.

1. Location in Relation to Existing Liquor Stores

Where a proposed liquor store is within 300 metres radial distance of an existing liquor store, any cumulative impacts of the facilities on existing development within the area must be considered in evaluating the application.

Key Land Use Bylaw Rules

Section 36 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

Discretionary Use That Does Not Comply

- 36** The **Development Authority** may approve a **development permit** application for a **discretionary use** where the proposed **development** does not comply with all of the applicable requirements and rules of this Bylaw if in the opinion of the **Development Authority**:
- (a) the proposed **development** would not unduly interfere with the amenities of the neighbourhood or materially interfere with or affect the use, enjoyment or value of neighbouring properties;

Section 40 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

Applications the Development Authority Must Refuse

- 40** The **Development Authority** must refuse a **development permit** application when the proposed **development**:
- (h) is for a **Liquor Store** in any district, other than the C-R2, C-R3 and CR20-C20/R20 Districts, that requires more than a 10 per cent relaxation of a minimum separation distance specified in subsections 225(d) or 225(e), except where the **development permit** is for:
 - (ii) an existing approved **Liquor Store** that proposes to move to a new location not within a minimum separation distance specified in subsections 225(d) or 225(e), excluding the distance from the original location of the existing approved **Liquor Store**.

Section 225 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

225 “Liquor Store”

- (d) in all Districts, not including the C-R2, C-R3 and CR20-C20/ R20 Districts, must not be located within 300.0 metres of any other **Liquor Store**, when measured from the closest point of a **Liquor Store** to the closest point of another **Liquor Store**;
- (e) in all **commercial** and **industrial districts**, not including the C-R2, C-R3 and CR20-C20/R20 Districts, must not be located within 150.0 metres of a **parcel** that contains a **School – Private** or a **School Authority – School**, when measured from the closest point of a **Liquor Store** to the closest point of a **parcel** that contains a **School Authority – School** or a **School – Private**;

Hi,

Ok, I will prepare the application for refusal.
 Once the application is prepared I will submit it for vetting and approval.
 This process can take a few weeks.

Once the refusal status is updated to 'complete' you will receive the information by email.

In the email it will give you instructions for how to file the appeal.
 Please note that once the application is in refused status the development authority is functus officio, and the authority moves to the SDBA.
 For any questions you have about the SDAB processes you will need to contact them.
 You can go to this website www.calagrysdab.ca to get some information about the appeal hearing.

Dear Sir/Madam:

RE: Detailed Review (DR)

Development Permit Number: DP2021-4228

Based on the plans received, your application has been reviewed in order to determine compliance with the Land Use Bylaw and applicable City policies. Any variance from the Land Use Bylaw or City policies may require further discussion or revision prior to a decision being rendered.

A written response to the Prior to Decision issues in this DR is required from the Applicant by the end of the thirty (30) calendar day response due date. In the event that the response due date expires, the application may be inactivated subject to a fifteen (15) calendar day reactivation timeline. In the case of a non-responsive or incomplete application, the General Manager – Planning, Development and Assessment may cancel the application as per Section 41.1 of Land Use Bylaw 1P2007.

Should you have any questions or concerns, please contact me at (403) 333-5503 or by email at melanie.robinson@calgary.ca.

Sincerely,

Detailed Review 1 – Development Permit

Application Number:	DP2021-4228
Application Description:	Revision: Liquor Store (to DP2019-4791)
Land Use District:	Mixed Use - General
Use Type:	Discretionary
Site Address:	8575 19 AV SW
Community:	SPRINGBANK HILL
Applicant:	MELTON DESIGN
Date DR Sent:	July 20, 2021
Response Due Date:	August 20, 2021
Senior Planning Technician:	MELANIE ROBINSON - (403) 333-5503 - melanie.robinson@calgary.ca

General Comments

During the review, the Development Authority considered the Land Use Bylaw rules and the compatibility and impact of the proposed development on the site, and with respect to the neighbourhood. The application proposes to operate a Liquor Store within a multi storey mixed use building. The plans submitted with the application indicate that the proposed use is on the main floor and faces 9th Street.

The application seeks a relaxation for a liquor store to be located within 300 metres from another approved liquor store in the community, measured at 217.96 metres. The intent of the minimum 300 metre setback requirement for a liquor store is to prevent proliferation of the land use. Section 40 of the Land Use Bylaw explicitly instructs the Development Authority to refuse all development applications for prospective Liquor Stores when it is found that the separation distance to other approved Liquor Stores requires a variance of greater than 10 percent.

In evaluating the application, the Development Authority determined that the location of the proposed liquor store is inappropriate. According to section 40 of the Land Use Bylaw 1P2007, the Development Authority must refuse the proposed development due to the separation distance clearance to the nearest approved Liquor Store. Accordingly, the application is refused.

Comments on Relevant City Policies

Liquor Store Separation Distance Guidelines (adopted by Council May 13, 2015)

Objectives

To ensure opportunities for liquor stores are balanced with the cumulative impacts of traffic, parking, noise and aesthetics they may have on communities.

The separation distance helps manage over concentration of liquor stores along corridors and in communities.

Guidelines

A request to reduce either the 300 metre minimum separation distance between a proposed liquor store and an existing liquor store, or the 150 metre minimum separation distance between a proposed liquor store and a school, up to 10 per cent of the minimum distance, may be approved by the development authority when:

1. The proposed liquor store is less than 300 metres from an existing liquor store, but located in and serving a different community or neighbourhood;
2. Only one liquor store or school is within the minimum separation distance;
3. A major road or expressway separates the proposed liquor store from the other liquor store or school within the separation distance;
4. The proposed liquor store, or the existing liquor store that is within the minimum separation distance, is located in an enclosed shopping centre; or
5. The existing liquor store located within the minimum separation distance is in a land use district where the separation distances do not apply (e.g. a direct control district, regional commercial district or a downtown district).

General Planning Criteria for Liquor Stores (adopted by Council November 6, 2000)

In its capacity as Approving Authority, the Calgary Planning Commission directs the Corporate Planning Applications Group to take into account the following issues in addition to all other relevant planning matters, in assessing and making recommendations on Development Permit applications for liquor stores.

1. Location in Relation to Existing Liquor Stores

Where a proposed liquor store is within 300 metres radial distance of an existing liquor store, any cumulative impacts of the facilities on existing development within the area must be considered in evaluating the application.

Bylaw Variances		
Regulation	Standard	Provided
40 Applications the Development Authority Must Refuse	(h) is for a Liquor Store in any district, other than the C-R2, C-R3 and CR20-C20/R20 Districts, that requires more than a 10 per cent relaxation of a minimum separation distance specified in subsections 225(d) or 225(e)...	There is one approved Liquor Store use located within 300 metres from the subject unit: <ul style="list-style-type: none"> • 217.96 metres from the approved Liquor Store at 1110, 288 St Moritz DR SW, a 27.4% relaxation.

Track your application on-line with VISTA. Go to: www.calgary.ca/vista and enter your JOB ACCESS CODE (JAC) from the application form or call Planning Services Counter at (403) 268-5311.

225 Liquor Store	(e) in all Districts, not including the C-R2, C-R3 and CR20-C20/CR20 Districts, must not be located within 300.0 metres of any other Liquor Store, when measured from the closest point of a Liquor Store to the closest point of another Liquor Store;	
------------------	---	--

Prior to Decision Requirements

The following issues must be addressed by the Applicant through a written submission and amended plans prior to a decision by the Approving Authority:

1. The development, as proposed, is not supported for the following reasons:
 - separation distance to another liquor store.

Indicate, in writing, the manner in which the application will proceed:

(A) Request **cancellation** of the application. Any applicable fee refund will be determined at the time of cancellation.

(B) **Pursue** the application, as proposed, with a decision of refusal by the Development Authority. The refusal will be based on the comments listed above.

Hi Landra,

Precedence does not set a standard for the separation distance for liquor stores. The Development Authority cannot approve a liquor store that does not comply with the separation rules.

I do not know what happened with that situation below, could be one of those stores appealed the Development Authorities decision, or it was a mistake.

This section in the Land Use Bylaw guides the Development Authority decision in situations where there is a separation distance more than 10%. As you can read below we have no other option.

PART 2: ADMINISTRATION

Division 6: General Provisions Relating to Development Permits

Applications the Development Authority Must Refuse

Hello Melanie,

Could you please look at the attached example image and give me your feedback? I have looked into the 300m buffer for wine stores and it seems that there is a strong precedent that if the wine stores are separated by a major road such as 85th Street that smaller separating distances are allowed. Before you send out your official report I would like to discuss this with you.

Please give me a call to discuss further.

Thank you,

Hello Melanie,

Thank you for taking the time to review our DP application (**DP2021-4228**) for the high end wine store proposed for Springbank Hill. We have attached our written response for the Prior to Decision Review.

Please let us know if you have any questions about the document. Please also confirm that emailing this to you directly is the correct procedure - do I need to submit this online as well?

Thank you, I hope your afternoon is going well.

Thanks for the further information melanie

As a community association we attempt to engage with affected residence. One of the issues we have had, with the incredible amount of construction and signage in the area - things get missed. 8 days seems like a very short time for display of signage....did you get any comments from effected residence to the west ?

Thanks again

Hello,

If the liquor store meets the relaxation distance of 10% or less we can approve it.

The distance between liquor stores is measured from unit to unit as the crow flies.

Discretionary means it is left to the development authority to make the decision, we would review all the information and make an informed decision to approve or refuse any discretionary application.

The notice posting signs were placed on the parcel on each street side. These postings were placed on June 30 and removed July 8.

If you are with the planning committee please note that Community Planning expects comments related to the surrounding area. Comments related to our bylaw review are not required from your group as this is outside of your scope for comment.

Hi Melanie

Just thought i would touch base on this as i haven't anything further from you on this matter.
 Also - shouldn't the applicant be posting a sign ? While i realize that the area is under construction and 19th ave does not exist yet - a sign could easily be posted along 85th street.
 No signage exists at the moment.

Thanks

Hi Melanie

Ok so you are referring to

40 The **Development Authority** must refuse a **development permit** application when the proposed **development**:

(h) is for a Liquor Store in any district, other than the [C-R2](#), [C-R3](#) and [CR20-C20/R20](#) Districts, that requires more than a 10 per cent relaxation of a minimum separation distance specified in subsections 225(d) or 225(e), except where the **development permit** is for:

the expansion or alteration of an existing approved Liquor Store or renewal of approval of a previously approved **development permit** for a Liquor Store; or

an existing approved Liquor Store that proposes to move to a new location not within a minimum separation distance specified in subsections 225(d) or 225(e), excluding the distance from the original location of the existing approved Liquor Store;

So that means then with the 10 per cent relaxation - they can be within 270 metres, instead of 300 metres.

When is the bylaw review completed ?

How is the actual distance measured ?

Are there any other discretionary approvals that would allow another liquor store to be development in the proposed retail development if within 270 metres ?

And i am on the SBHCA planning group - just gathering information, as we have had concerns in the neighborhood in regards to liquor store placement and want to ensure i have the relevant information

Also will signage be posted requesting this change ?

Given that the actual location is in the middle of a construction zone is their a requirement for the signage to be in a location that affected residents to the west and south can actually see the signage ?

Thanks

Marshall

Hi Melanie

Thanks for this ... bit of a followup then

1 : There is currently a liquor store in

Shoppes of St Moritz 288 St Moritz Dr SW, Calgary, AB T3H 5X8 which using goggle maps is pretty close to 300 meters away

2 : Am i correct in assuming - if this is approved a liquor store would not be allowed in Ronmor's retail development at 17th / 19 ave and 81st street - which would seem a much better location but is well within the 300 meters.

Thanks

Hi Marshall,

The Land Use Bylaw 1P2007 has very clear rules for minimum distance requirements to other liquor stores. You can search "Liquor Stores" in [this link](#) to obtain this information.

If there are other liquor stores within the minimum setback, the application will not be supported.

Hello,

According to the initial DP
Dwelling Units, Retail and Consumer Service, Restaurant: Licensed - Medium were approved.

This liquor store is replacing one of the uses approved in that initial application. I do not know which unit has which use because those plans do not indicate this detail.

According to the plans for DP2021-4228 the liquor store is located on the SW corner facing 85th Street.

Application Description:	Revision: Liquor Store (to DP2019-4791)
Land Use District:	Mixed Use – General
Use Type:	Discretionary
Site Address:	8575 19 Avenue SW, Calgary
Applicant:	Bill Lavergne (owner) / with support from Melton Design Inc.
Date DR sent:	July 20, 2021
Receipt of Decision:	August 24, 2021
Hearing Date:	Thursday, September 16, 2021, 9AM

To whom it may concern,

Melton Design Inc. is in receipt of the Prior to Decision review sent on July 20, 2021, and the Notification of Decision received from the Planning and Development Group on August 24, 2021. In consultation with our client, we wish to appeal the decision. We acknowledge that the proposed store will be within 300m of a store which opened in April of 2021, and this is the sole reason for refusal of our application. The requested relaxation of 82m exceeds the 10% allowance allowable under Section 40 (h) of the City of Calgary Land Use Bylaw 1P2007. We believe there are numerous mitigating factors which support a further relaxation of the existing 300m separation distance limitation. These mitigating factors include the following:

- The sole liquor store within the 300m radius is separated by a major thoroughfare (85th Street SW). There will be no line of sight between the stores, and the existing store can cannot be seen from 85th street SW. As such, it is our belief that the existing store services its own unique community on the west side of 85th street (Summit of Montreux).
- We do not believe the proposed store location will negatively impact the surrounding community. Significant residential and commercial development is currently approved and

SDAB2021-0061

underway in the NW quadrant of Springbank Hill. These developments are expected to add an additional 16,000 residents to the neighbourhood, representing an expected 160% increase to the current population of ~10,000 residents (2016 census). This project will go beyond the minimum standard set by building code requirements for accessibility. We believe this is of note when there is an approved Assisted Living development directly north of our location.

- Similar requests have been approved throughout the City of Calgary setting a precedent for approval. Of note are exemptions to the separation distance limitation to the north of our proposed location and separated by the exact same thoroughfare (85th street SW).
- The proposed location will be focused on wine sales, with staff trained and accredited with exceptional levels of wine knowledge and education. As such, the store will service a unique segment of alcohol sales in comparison to other Springbank Hill area retail stores.

Separation by Major Thoroughfare

The sole location within the 300m radius restriction is Always Liquor, located at 288 St. Moritz Drive SW in a distinct subsection of Springbank Hill called Summit of Montreux. Always Liquor is the only liquor store in the area west of 85th street, and one of two liquor stores currently servicing the entirety of Springbank Hill. The proposed location is east of 85th street SW, with major improvements planned to 85th street as part of approved development plans in the area. These improvements include widening the road allowance, a median strip, and multi-use pathways. Please reference the areal map of the two store locations in **Appendix A** and the planned improvements to 85th street in **Appendix B**.

There is no line of site between the two stores, and additionally there is no line of site from any point on 85th street SW to the existing store.

Community Impact & Future Development

The entirety of the NW quadrant of Springbank Hill is currently under varying phases of development with over 6,000 new homes planned for the area and the addition of 16,000 new residents (Source – City of Calgary – see **Appendices C and D**).

The proposed wine store location will be in the approved “Aspen Spring Community” project and developed by Slokker Homes. The Slokker development includes a total of 90 townhomes and 48 condominiums with the requested liquor store location part of a retail complex on the ground floor of a four-story condominium. Over 40 parking locations are reserved for the nine retail locations in this development, providing ample parking without congestion. Accessible parking spaces are available directly in front of the store entrance. Store inventory will arrive directly through the main entrance with two wide parking stalls designated for such activity.

Directly adjacent developments include estate homes with additional condominiums and townhomes spread over 24 acres. These developments are centered around a lake just south of 17th avenue and between 81st and 85th streets SW. **Appendix E** provides a map showing a general description of approved developments planned in the immediate area surrounding the proposed liquor store location.

There are no schools in the immediate vicinity of the proposed store, with the closest Springbank Hill school 500m away (Rundle College).

The location will exceed building code requirements for accessibility. We believe this is of note when there is an approved Assisted Living development directly north of our location (reference **Appendix E**). The store will be designed to adhere to requirements in the NBC 2019 – AB Edition Section 3.8 Accessibility. It will have automated door opening and extra wide aisles (1.3m+) with a design intent to allow a person with mobility issues unrestricted movement throughout the store.

The development includes numerous trees and paths connecting to a protected ravine, creating a distinctive multi-use site with retail stores, high/low-density housing, and a central pond/lake. We are convinced that there will be no negative impact on the neighbourhood, contrarily we expect to enhance it by providing a unique service in an area soon to have a large influx of new residents. The proximity of the store to surrounding residents will reduce vehicular traffic for those desiring access to boutique wine store offerings.

Please reference **Exhibit N** which shows the developer's landscape plans and an outline of the nine retail locations in the complex.

With reference to the above comments on community impact and the scale of development currently underway in Springbank Hill, we believe the location meets all requirements for relaxation of regulations as defined in Section 687 (3d) of the Municipal Government Act.

Finally, we note that the store and suite will be owned and operated by a Springbank Hill resident and will employ multiple staff.

Prior Approvals of a Similar Nature

There are many examples of liquor stores throughout Calgary which contravene the 300m radius requirement by more than the potentially allowable 10% variance. Most of these contravening approvals are similar in nature to our request – they are across a major roadway (yet many also lie within the same subdivision). Specifically, some examples include:

Unique Market Served

Our proposed boutique wine store will focus primarily on the sale of smaller production, high quality wines. A smaller component of sales will be high end spirits and local craft beers. As a result of the sales being targeted towards a unique subset of the liquor purchasing market, the expectation is that only a small portion of inventory would be in common with the Always Liquor location (<10%).

Furthermore, the owners intend to obtain an Import license in Alberta, ensuring a unique inventory from other stores in Calgary. The Import license will drive additional sales to licensed restaurants throughout Alberta. As such, we believe the locations will not be competitive and the proposed wine and spirits store will be selling to a clientele which is currently not fully serviced in the Springbank Hill area.

Summary

The proposed store, although within the 300m distance limitation for liquor stores set by City of Calgary regulations, is separated by a major thoroughfare and will be constructed in a new and distinct development. With unique wine offerings to meet the needs of new and existing residents, ample parking, and a well-designed community development plan we suggest that there will be no negative impact on the surrounding neighbourhood. Contrarily, the store is expected to provide products and services that are not currently available in this rapidly expanding area. As such, we respectfully request that our application be approved despite the single limiting factor of distance to another liquor store. Please advise if we can provide any additional information to supplement our application.

Reasons for Refusal for DP2021-4228

The Reasons for Refusal document is intended to provide a short summary of the development permit review and analysis. Attached to this document is supporting information about the application process; concerns raised by neighbours, other affected parties and the Community Association; the requested relaxations of the Land Use Bylaw; and other information in support of the decision.

Proposed Use

This application proposes a change of use for a Liquor Store to be in Suite 1110 288 ST Moritz Dr SW in the community of Springbank Hill. The subject parcel is designated Mixed Use – General District (MU-1) District under the City of Calgary Land Use Bylaw 1P2007. The Liquor Store land use is a discretionary use in this district.

Planning Review and Analysis

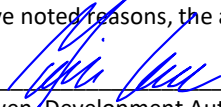

During the review, the Development Authority considered the Land Use Bylaw rules and the compatibility and impact of the proposed development on the site, and with respect to the neighbourhood. The application proposes to operate a Liquor Store within a multi storey mixed use building. The plans submitted with the application indicate that the proposed use is on the main floor and faces 85th Street.

The application seeks a relaxation for a liquor store to be located within 300 metres from another approved liquor store in the community, measured at 218 metres. The intent of the minimum 300 metre setback requirement for a liquor store is to prevent proliferation of the land use. Section 40 of the Land Use Bylaw explicitly instructs the Development Authority to refuse all development applications for prospective Liquor Stores when it is found that the separation distance to other approved Liquor Stores requires a variance of greater than 10.0 per cent.

In evaluating the application, the Development Authority applied section 40 of the Land Use Bylaw 1P2007, the Development Authority must refuse the proposed development due to the separation distance clearance to the nearest approved Liquor Store. Accordingly, the application is refused.

Decision

For the above noted reasons, the application is refused.

 Maurie Loewen, Development Authority

Site and Context

The proposed use is located within a new mixed-use building on a 0.52 hectare parcel. This parcel is located at the north west corner of 85th Street and 19th Avenue S.W. in the community of Springbank Hill. The parcel is under development and the Liquor Store is a revision to DP2019-4791. DP2019-4791 is pending receipt of the prior to released conditions issued by the Development Authority related to site servicing.

The development is a three-storey building that contains 15 dwelling units with commercial uses at grade. Indoor parking is located on the lower level accessed from the east side of the building within the parking lot. The parcel is accessed from 19th Avenue. At grade exterior parking is in the parking lot. Based on the submitted plans the loading area for the liquor store is in the parking spaces south of the liquor store.

Applicable Planning Policy Guidelines

Liquor Store Separation Distance Guidelines (adopted by Council May 13, 2015)

Objectives

To ensure opportunities for liquor stores are balanced with the cumulative impacts of traffic, parking, noise and aesthetics they may have on communities.

The separation distance helps manage over concentration of liquor stores along corridors and in communities.

Guidelines

A request to reduce either the 300 metre minimum separation distance between a proposed liquor store and an existing liquor store, or the 150 metre minimum separation distance between a proposed liquor store and a school, up to 10 per cent of the minimum distance, may be approved by the development authority when:

1. The proposed liquor store is less than 300 metres from an existing liquor store, but located in and serving a different community or neighbourhood;
2. Only one liquor store or school is within the minimum separation distance;

The City of Calgary

Planning and Development

Technical Planning and Bylaw Review

3. A major road or expressway separates the proposed liquor store from the other liquor store or school within the separation distance;
4. The proposed liquor store, or the existing liquor store that is within the minimum separation distance, is located in an enclosed shopping centre; or
5. The existing liquor store located within the minimum separation distance is in a land use district where the separation distances do not apply (e.g. a direct control district, regional commercial district or a downtown district).

General Planning Criteria for Liquor Stores (adopted by Council November 6, 2000)

In its capacity as Approving Authority, the Calgary Planning Commission directs the Corporate Planning Applications Group to take into account the following issues in addition to all other relevant planning matters, in assessing and making recommendations on Development Permit applications for liquor stores.

1. Location in Relation to Existing Liquor Stores

Where a proposed liquor store is within 300 metres radial distance of an existing liquor store, any cumulative impacts of the facilities on existing development within the area must be considered in evaluating the application.

Key Land Use Bylaw Rules

Section 36 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

Discretionary Use That Does Not Comply

- 36** The **Development Authority** may approve a **development permit** application for a **discretionary use** where the proposed **development** does not comply with all of the applicable requirements and rules of this Bylaw if in the opinion of the **Development Authority**:
- (a) the proposed **development** would not unduly interfere with the amenities of the neighbourhood or materially interfere with or affect the use, enjoyment or value of neighbouring properties;

Section 40 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

Applications the Development Authority Must Refuse

- 40** The **Development Authority** must refuse a **development permit** application when the proposed **development**:
- (h) is for a **Liquor Store** in any district, other than the C-R2, C-R3 and CR20-C20/R20 Districts, that requires more than a 10 per cent relaxation of a minimum separation distance specified in subsections 225(d) or 225(e), except where the **development permit** is for:
 - (ii) an existing approved **Liquor Store** that proposes to move to a new location not within a minimum separation distance specified in subsections 225(d) or 225(e), excluding the distance from the original location of the existing approved **Liquor Store**.

Section 225 of the City of Calgary Land Use Bylaw 1P2007 states, in part:

225 “Liquor Store”

- (d) in all Districts, not including the C-R2, C-R3 and CR20-C20/ R20 Districts, must not be located within 300.0 metres of any other **Liquor Store**, when measured from the closest point of a **Liquor Store** to the closest point of another **Liquor Store**;
- (e) in all **commercial** and **industrial districts**, not including the C-R2, C-R3 and CR20-C20/R20 Districts, must not be located within 150.0 metres of a **parcel** that contains a **School – Private** or a **School Authority – School**, when measured from the closest point of a **Liquor Store** to the closest point of a **parcel** that contains a **School Authority – School** or a **School – Private**;

Executive Summary

Melton Design is in receipt of the Prior to Decision review sent on July 20, 2021, and the Notification of Decision received from the Planning and Development Group on August 24, 2021. In consultation with our client we wish to appeal the decision. We acknowledge that the proposed store will be within 300m of a store which opened in April of 2021, and this is the sole reason for refusal of our application. The requested relaxation of 82m exceeds the 10% allowance under Section 40 (h) of the City of Calgary Land Use Bylaw 1P2007. We believe there are numerous mitigating factors which support a further relaxation of the existing 300m separation distance limitation. These mitigating factors include:

- The sole liquor store within the 300m radius is separated by a major thoroughfare (85th Street SW). There will be no line of sight between the stores, and the existing store cannot be seen from 85th street SW. As such, it is our belief that the existing store services its own unique community on the west side of 85th street (Summit of Montreux). Additionally we note that the walking distance between stores is in excess of 400m, and the driving distance even further.
- We do not expect the proposed store location to negatively impact the surrounding community. Significant residential and commercial development is currently approved and underway in the NW quadrant of Springbank Hill. These developments are expected to add an additional 16,000 residents to the neighbourhood, representing an expected 160% increase to the current population of ~10,000 residents (2016 census). This project will go beyond the minimum standard set by building code requirements for accessibility. This is of note when there is an approved Assisted Living development directly north of our location.

Executive Summary (cont.)

- The proposed location will be focused on wine sales with staff trained and accredited with exceptional levels of wine knowledge and education. With a focus on higher end wines, the store will service a unique segment of alcohol sales in comparison to other Springbank Hill retail liquor stores.
- Significant residential and commercial development is currently approved and underway in the NW quadrant of Springbank Hill. These developments are expected to add an additional 16,000 residents to the neighbourhood, representing an expected 160% increase to the current population of ~10,000 residents (2016 census). With the expected population influx Springbank Hill will have one of the lowest densities of liquor stores in Calgary.
- Similar requests have been approved throughout the City of Calgary seemingly setting a precedent for approval. Of note are exemptions to the separation distance limitation directly north of our proposed location and separated by the exact same street (85th street SW), with those particular stores easily within sight of one another.

Separation by Major Thoroughfare

Separation by Major Thoroughfare (85th Street SW)

- The sole location within the 300m radius restriction is Always Liquor, located at 288 St. Moritz Drive SW in a distinct subsection of Springbank Hill called Summit of Montreux. The proposed location is separated from Always Liquor by a major thoroughfare, 85th street SW, with major improvements planned to 85th street as part of approved development plans in the area. These improvements include widening the road allowance, a median strip, and multi-use pathways. Please reference the areal map of the two store locations in **Appendix A** and the planned improvements to 85th street in **Appendix B**.
- While the radial distance between stores is ~ 218m the distance to walk or drive between stores is significantly larger at ~320m or more, see **Appendix C**.
- There is no line of site between the two stores, and additionally there is no line of site from any point on 85th street SW to the existing store. **Appendix D** shows a ground photograph of the proposed store location with the Summit of Montreux neighbourhood in the background (also seen in image to the right).

Community Impact

Ongoing and Future Community Development

- The entirety of the NW quadrant of Springbank Hill is currently under varying phases of development with over 6,000 new homes planned for the area and the addition of 16,000 new residents (Source – City of Calgary – see **Appendix E**).
- The area is designated for Mixed Use and follows City guidelines for retail merchants to concentrate on the 17th Avenue SW corridor. The proposed store will represent an extremely small portion of planned retail construction in the area. **Appendix F** provides a map showing a general description of developments planned in the immediate area surrounding the proposed liquor store.
 - The proposed wine store location will be in the approved “Aspen Spring Community” project which includes 90 townhomes and 48 condominiums. The requested liquor store location part of a retail complex on the ground floor of a four-story condominium.
 - Adjacent developments include estate homes with additional condominiums and townhomes spread over 24 acres centered around a lake just south of 17th avenue and between 81st and 85th streets SW, along with a larger scale outdoor retail complex.
 - Directly north of the proposed store is an Independent Living development. We believe it is likely that many of their residents would be wine consumers, and our physical location combined with our high standard for accessibility would be a welcome addition to the area.

Community Impact (cont.)

Springbank Hill Resident Impact

- BKL Wine Merchants has been in contact with the **Planning Committee of the Springbank Hill Community Association**. The Community Association has contacted numerous homeowners in the Summit of Montreux area for feedback on our proposed wine store development. No responses were received. Personal engagements with area residents indicate an overwhelming consensus that a boutique wine store would be a welcome addition to the neighbourhood.
- Over 40 parking locations are reserved for the nine retail locations in this development, providing ample parking without congestion. Accessible parking spaces are available directly in front of the store entrance. Store inventory will arrive directly through the main entrance with two wide parking stalls designated for such activity.
- There are currently only two liquor stores servicing the entirety of Springbank Hill and no boutique wine stores. We believe many area residents would welcome a store such as ours. With planned development this area will have perhaps the lowest density of liquor stores in Calgary – Source: Calgary Planning Commission Report to Counsel (2015), see **Appendix G**.

Contributions to the Community and City

- This location will initially employ a minimum of four staff and is owned by a Springbank Hill resident. The owners intend to utilize regular charitable days and events to support local groups within Springbank Hill and the entirety of Calgary. While not common with liquor stores such events are reasonably routine with Calgary wine retailers – another differentiating factor between boutique wine outlets and lower margin retail liquor stores.

“Liquor Store” or Boutique Wine Market?

Unique Market Served

- Our boutique wine store will focus primarily on the sale of low production and quality wines. Furthermore, the owners intend to obtain an import license in Alberta, ensuring a unique inventory from other stores in Calgary and which will additionally drive sales to licensed restaurants and events throughout Alberta. Our expectation is that within a short period only a small portion of inventory would be in common with other area liquor stores (<5%). As a result, the locations are not in competitive markets, and the proposed wine and spirits store will be selling to a unique clientele which we believe is not being serviced in Springbank Hill.
- Despite extensive research we are unable to find a single study which specifically correlates boutique wine stores to negative community impacts. In contrast, there are numerous studies which demonstrate a positive health impact for light or moderate wine consumption (happily provided upon request). We also propose that the expected affluent customer base of a boutique wine market will provide a boost to area businesses.
- The 2015 Report to Counsel on Liquor Store Separation Distances specifically noted the following objections to proposals limiting the ability of the Licensing Board to reduce separation distances when warranted (also see **Appendix H**):
 - Lack of differentiation between types of liquor stores
 - Blaming liquor stores for aesthetic and traffic issues that are no worse than other non-liquor related operations
 - The removal of administrative discretionary powers

Analogous Approvals

Prior Approvals of a Similar Nature

There are many examples of liquor stores throughout Calgary which contravene the 300m radius requirement by more than the potentially allowable 10% variance. The majority of these contravening approvals are similar in nature to our request – they are across a major roadway (yet many lie within the same subdivision). While we are aware that some areas of Calgary are governed by different infrastructure rules than Springbank Hill, we are unable to determine what sets some of these approvals apart from our requested store. Conversations with the Calgary Licensing Department left us with little additional insight other than advice to apply for a license, be turned down, and then appeal that decision citing some of the same factors we put forward in this presentation.

Specific examples of reduced spacing approvals include:

- **Appendix I**

Aspen Wine & Spirits, 366 Aspen Glen Landing SW #130 & Highlander Wine & Spirits, 10 Aspen Stone Blvd SW

Separation Distance ~ 202m (**33% relaxation**)

Identical to our location directly south – stores both in the same subdivision, Aspen Springs

Identical to our location – stores separated by 85th Street SW

- **Appendix J**

Spirits of Kensington, 20 14 St NW & Kensington Wine Market, 1257 Kensington Rd NW

Separation Distance ~ 182m (**39% relaxation**)

Same subdivision and no major road separating and two stores within 300m radius

Analogous Approvals (cont.)

- **Appendix K**

Vine Styles, 1127b Kensington Rd NW & Kensington Wine Market, 1257 Kensington Rd NW

Separation Distance ~ 280m

Within 10% variance, however same subdivision *and* no major road separating *and* two stores within 300m radius

- **Appendix L** – Additional examples of additional liquor store approvals below threshold spacing requirements

Supplemental Information

Additional Information

- The location, which will be branded as BKL Wine Merchants, will exceed requirements for accessibility with extra wide aisles and automated door openers. We believe this is of note when there is an approved Assisted Living development directly north of our location (reference **Appendix E**). In addition to automated door opening, the store will have extra wide aisles (1.3m+) which will allow complete movement throughout the store.
- Over 40 parking locations are reserved for the nine retail locations in this development, providing ample parking without congestion. Accessible parking spaces are available directly in front of the store entrance. Store inventory will arrive directly through the main entrance with two wide parking stalls designated for such activity.
- The development includes numerous trees and paths connecting to a protected ravine, creating a unique multi-use site with retail stores, high/low-density housing and a central pond/lake. We believe there will be no negative impact on the neighbourhood, contrarily we expect to enhance it by providing a unique service adjacent to where there is expected to be a large influx of new residents. The nearby location of our store will reduce vehicular traffic for those pursuing similar products to our planned offerings. Boutique wine stores tend to have relatively low traffic and are typically supported by clientele with high disposable incomes – this in turn will improve visibility and sales for the adjacent retail stores and restaurants planned in this complex. Please reference **Exhibit M** which shows the developer's landscape plans and an outline of the nine retail locations in the complex.
- The store will be owned and operated by a Springbank Hill resident, and will employ multiple staff.

Summary

Summary

The proposed store, although within the 300m distance limitation for liquor stores set by City of Calgary regulations, is separated by a major thoroughfare and will be constructed in a new and distinct development. With unique wine offerings to meet the needs of new and existing residents, ample parking and a well designed community development plan we suggest that there will be no negative impact on the surrounding neighbourhood. Contrarily, the store is expected to provide products and services that are not currently available in this rapidly expanding area. Additional contributions will include providing local employment opportunities and fundraising for Calgary based charitable organizations. We respectfully submit that the Appeal Board has the ability to differentiate licenses with the recognition that a boutique wine market and a liquor store are unique retailers, and that the 300m distance limitations need not apply in this circumstance.

Please advise if we can provide any additional information to supplement our application.

CALGARY PLANNING COMMISSION'S REASONS FOR REFUSAL RECOMMENDATION

Calgary Planning Commission is recommending that Council Abandon the proposed bylaw. Detailed reasons are contained in the Minutes of the meeting on page 6. In summary, CPC's recommendation is based on:

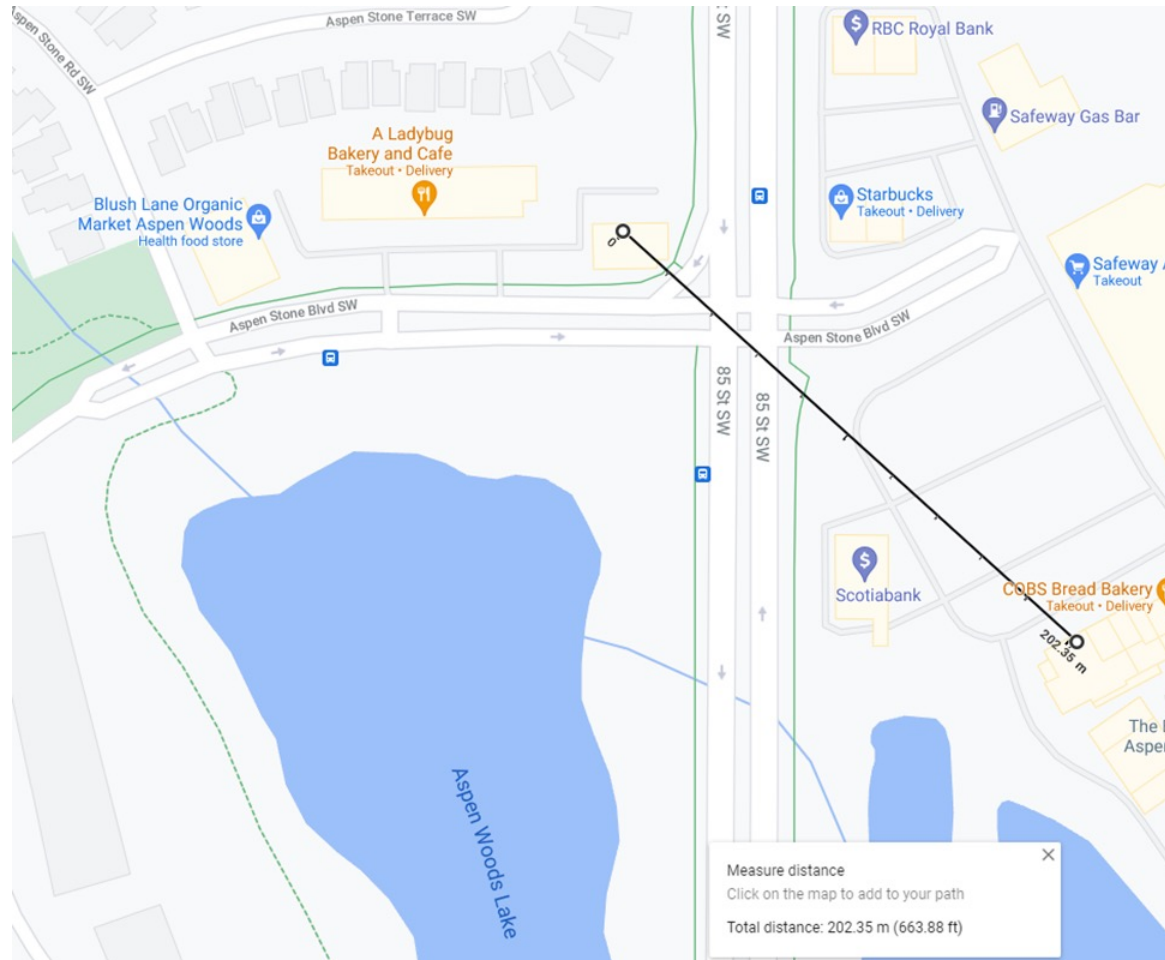

- The lack of meaningful input from directly affected stakeholders;
- The removal of administrative discretionary powers;
- Lack of evidence in support of the issues that gave rise to the amendments;
- Lack of differentiation between types of liquor stores;
- Blaming liquor stores for aesthetic and traffic issues that are no worse than other non-liquor related operations;
- Being out of step with standards in other areas of the province.

Hi officer,

I received a letter from your department regarding to my own property which is located close to land that is the subject of an upcoming appeal to the Calgary subdivision and development appeal board.

Because the VC call date is on Sep 16, 2021 (Thursday) 9:00am which I need to go to work and cannot attend. I would like to raise my concern through email for your record.

About the business of liquor store which is planning to open at 8575 19 Ave SW, I don't agreed to have a repeated type of business appear in the nearby location. The reason is at least 2 liquor stores are just at the south and west of the above location. 1 is called Always Liquor at 228 St Moritz Dr SW and the other 1 is called Aspen Wine and Spirit at 366 Aspen Glen Landing SW. There is a 3rd one which is less than 5km can be found. The store is called Co-op wine spirit s beer liquor store at 917 85 St SW. For the above reason, I think we have enough liquor stores around this community. Thanks.

Best,
Derek Tse
